OBJECTIVE

Seeking a challenging role in frontend development, where I can leverage my problem-solving skills and passion for innovation to contribute to the creation of user-centric software solutions. Dedicated to driving excellence in software development and collaborating effectively with cross-functional teams to deliver impactful results.

EDUCATION

SARASWATI VIDHYAMANDIR (1 st – 6 th) (2009 – 2016)	Rajkot, Gujarat
SHREE VJ MODI SCHOOL (7 th -12 th) (2016 – 2021)	Rajkot, Gujarat
DHARMSINH DESAI UNIVERSITY 2021 – 2025 (Currently in 3 rd year)	Nadiad, Gujarat

TECHNICAL SKILLS

Languages: Java, C++, Kotlin, JavaScript, TypeScript, Python
Frameworks: Flutter, ReactJs, Spring MVC, SpringBoot, Jakarta EE
Database: MySQL, PostgreSQL, Firebase
Tools: Git/GitHub, Android Studio, VS Code, IntelliJ IDEA, Jupyter Notebook, Firebase, Canva, Figma, Adobe xd, Lightroom

SOFT SKILLS

- Adaptability
- Management
- Ability to work in team
- Leadership
- Communication and networking
- Critical thinking

PROJECTS

TechSphere: Android Studio (java), Firebase (for auth, database)

- TechSphere facilitates seamless collaboration between students and faculty, simplifying document management with easy PDF uploads and supporting various file formats. It offers unique features like the CPI predictor module for academic forecasting and the scheduler module for task organization. With TechSphere, academic pursuits are streamlined, empowering users in their educational journey.
- <https://github.com/yess-wee/TechSphere>

Krushibook: ReactJs, SpringBoot, MySQL

- Krushibook is a website for farmers to document crop cultivation, enhancing productivity tracking and fostering transparency for stakeholders. It enables direct communication channels between farmers and stakeholders, revolutionizing farm management

Hotel Management System postgresSQL, Lucid Chart

- Proficiently designed and implemented a comprehensive hotel management system leveraging PostgreSQL, encompassing ER diagram creation, relational schema development, and database implementation. Demonstrated adeptness in database architecture and management, ensuring efficient data organization and retrieval for streamlined operations.

DocBook: Android studio (java), Firebase (database)

- DocBook is a sophisticated Android app that modernizes medical record-keeping for healthcare professionals. By replacing traditional methods, it enables efficient organization and management of patient information. With intuitive features for updating and retrieving records, DocBook enhances workflow efficiency, allowing providers to focus on patient care.

EXTRA-CURRICULAR ACTIVITIES

- Accomplished problem solver with a 3-star rating on Hackerrank, 160+ problems on LeetCode. Present photographer of university club – 'Connect'
